Ruby Java C++ MATLAB Python ArduinoC

#### current courses

CS Pragmatics Physics 240 Engineering 100 Statistics 240

## courses taken

Differential Eqns. Engineering 101 Physics 140

## education

2018 - 2022 B.S.E. in Computer Science
University of Michigan College of Engineering

2014 - 2018 Diploma with highest honors and Mastery in Science
Syosset, NY
Syosset High School

Ann Arbor, MI
GPA: 4.0/4.0

Syosset, NY
GPA: 8.636/8.0

# **e**xperience

#### 2014 - now Website Developer

Selected to lead design and implementation of the new Syosset Senior High School's website utilizing Ruby on Rails, MongoDB, and Redis (2017-now). Responsible for 280+ commits with 24,000+ changes. Project was started from scratch, open sourced with MIT License, and features extensive permission system and administrative backend.

#### 2014 - 2018 Researcher

https://neiljohari.page.link/ml

https://syosseths.com

Successfully developed a machine learning model to analyze MRI scans of Alzheimer's disease patients (2016-2018).

Created a model of video game hours played due to social influence with an analysis through machine learning (2015-2016).

Conducted literary research on sleep deprivation (2014-2015).

# open source side projects

Programmed a transparent Ruby permissions system gem with MongoDB

integration.

2014 - 2015 Mongoid Forums https://github.com/NJayDevelopment/mongoid forums

Developed a Ruby on Rails gem for forums with MongoDB integration.

2012 - 2014 AutoBroadcaster+ https://dev.bukkit.org/projects/abp

Published a server-wide scheduled broadcasting plugin for Minecraft. Down-

loaded 227k+ times.

## awards

0010

ature Citation
ature Citation

In recognition of leadership and community engagement.

2018 Bernie Goudreau Memorial Award

In recognition of achievement in mathematics and computer science.

2017 1st Place at Andromeda, 2nd Place at WAC Invitational

Awarded for the creation of a machine learning model to analyze MRI scans of Alzheimer's disease patients using convolutional neural networks.

2015 Gold Medal at Al Khalfus Math Fair

Awarded for the creation of a model of video game hours played due to social

influence with an analysis through machine learning.
